DETAILED ACTION

The examiner has considered applicants' amendment and response filed October 18, 2007. As a result of said amendment and arguments therein, the rejections of record under 35 U.S.C. 102 have been overcome; however, the rejection under 112, second paragraph has been maintained and updated to recite the newly added claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claim is drawn to a compound (monomer); however, applicants attempt to define the compound not with a definite structure, but with functional language. As such it is unclear what compound, i.e., what definite structure, applicants are actually claiming. The terms applicants use to define the compound, i.e., dienophile groups, rings structure with two conjugated carbon-carbons double bonds, etc., can apply to a great many compounds, which further lends to the lack of clarity or specificity regarding the compound applicants are actually claiming.

The examiner would like to suggest that applicant combine claims 10 and 11 to overcome this rejection.

Claims 11-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
